Dear Sir or Madam,

On 13 June 2025, the Contracting Authority received a request for clarification regarding the procurement documentation for the public contract titled "Laboratory stand for syngas conversion and catalytic transformation of gaseous mixtures into hydrogen", awarded through an open above-threshold procedure.

In accordance with Sections 98 and 99 of Act No. 134/2016 Coll., on public procurement, as amended (hereinafter referred to as "the Act"), we hereby provide a response to this request.

The explanation is being provided in the same manner in which the procurement documentation was made available, i.e., by publication on the contracting authority's profile. At the same time, the explanation is also being sent to all known suppliers.

Request no. 1:

I have a question regarding prices in Tender. Should we quote as a German company prices without VAT as well as with German VAT or just price with VAT 0%?

Explanation:

The price excluding VAT does not include Czech VAT or VAT from any other country. This price excluding VAT is then also evaluated.

The Economic Operator is responsible for ensuring that the rate of value added tax at the time of invoicing is set in accordance with the applicable and effective laws and regulations.

In Ostrava
