VSB TECHNICAL  
UNIVERSITY  
OF OSTRAVA

in cooperation with  
**Fraunhofer**

FRAUNHOFER INNOVATION PLATFORM FOR APPLIED ARTIFICIAL INTELLIGENCE  
FOR MATERIALS & MANUFACTURING AT VSB – TECHNICAL UNIVERSITY OF OSTRAVA

Fraunhofer Innovation Platforms are set up as long-term collaborations between Fraunhofer Institutes and universities or non-commercial research organisations around the world. With an initial term of five years, a FIP fosters the exchange of knowledge as well as the valorisation, transfer and commercialisation of scientific research output.

## What benefits do we offer you?

1

Interdisciplinary and subject-specific, application-oriented complete solutions in:

- Production
- Energy systems
- IT / Artificial Intelligence

2

Networking and submission of applications for joint national and international projects, as well as direct order processing with non-disclosure in:

- The Czech Republic
- Germany
- EU and non-EU countries

3

Expertise from two leading research institutions forming a single platform:

- Covering the entire industrial value chain
- Fast and technically excellent
- One contact point
